

The Canada-Alberta Job Grant (CAJG) is a training program where an employer applies on behalf of their employee(s) for eligible training costs. Employers decide who gets training and what type of training may be needed for their employees. A-Partners Ventures Inc. offers the Product Opportunity Mapping training program and we will work in partnership with your company to help prepare a grant application. Please do not hesitate to reach out to us at [hello@a-partners.ca](mailto:hello@a-partners.ca) for assistance.

## Before you Apply

- 1) The CAJG is intended to support incremental training (training that is in addition to existing training and would not take place without the grant). To determine if the requested training is incremental, you must answer the following questions:
  - a. Will this training take place without the Canada-Alberta Job Grant Funding?
  - b. Has the training already been paid for?
  - c. Has the training already started?If the answer is Yes, to any of the above questions, the training is not incremental and NOT eligible for CAJG funding.
- 2) Identify employees you want to receive Product Opportunity Mapping Training
- 3) A-Partners will provide a detailed quote for the training. This quote will be needed to complete the grant application.
- 4) We recommend that you allow at least 6 weeks for the application to be processed before training begins.
